RIDE THE LIMITS

COLLECTION

2022

RIDE TIME

A black and blue Yamaha motorcycle is parked on a gravel surface. The motorcycle is the central focus, shown from a low angle. A black helmet with blue accents is placed on the seat. The background features a cloudy sky and some buildings in the distance. The text 'THE LIMITS' is overlaid in large white letters across the middle of the image.

**RICHA PRODUCTS ARE
PROTECTED BY D3O.**

**NOTHING PROTECTS
BETTER THAN D3O.**

D3O offers the thinnest and most advanced protection against impact, with a wide range of level 1 and 2 CE EN 1621 certified protection.

Trusted by professional and amateur motorcyclists alike, D3O is the number one choice for impact protection delivering comfort, flexibility and fit, both on- and off-road.

So, if they trust D3O – you can too.

D3O® BACKSHIELD

BP4 L2

EN 1621-2 (Level 2)

D3O® Backshield features the most breathable back protector on the market, the D3O® BP4. An exceptionally soft and flexible protector offering optimal safety on the streets and the circuit.

D3O® LP2 PRO

Shoulder, Elbow, Hip, Knee

EN 1621-1 (Level 2)

The most advanced, breathable armour for motorcycle, certified to the highest level of impact protection. Maximum comfort in warm conditions, without sacrificing performance.

D3O® GHOST™

Knee/Elbow, Shoulder/Hip

EN 1621-1 (Level 1)

The thinnest and most flexible limb protector range from D3O. Designed as fit and forget armour Ghost™ is made with revolutionary D3O® Impact Print™ tech, delivering unrivalled flexibility.

AQUASHELL WATERPROOF PROTECTION

THE LATEST INNOVATION IN WATERPROOF AND BREATHABLE MOTORCYCLE CLOTHING FROM RICHA

HOW AQUASHELL WORKS

Richa Aquashell sees the incredible strength of our core fabric paired with a waterproofing lamination process, which ensures no compromises are made on comfort, flexibility, protection or breathability. Riders all over the world turn to Richa Aquashell as their chosen protection, shielding them from the most extreme conditions.

PROTECTION FOR ALL WEATHER CONDITIONS

A waterproof, windproof and breathable solution, our unique Aquashell technology provides essential ventilation whilst maintaining a comfortable body temperature.

For: Riders who want outstanding protection against all elements.

WATER COLUMN:
8,000 to 10,000 mm.

DETACHABLE PROTECTION FOR ALL WEATHER CONDITIONS

Richa Aquashell is zipped into your protective riding apparel and easily removed, to maximum ventilation in warmer conditions.

For: Touring bikers that require adaptable protection to suit all conditions.

WATER COLUMN:
10,000 to 15,000 mm.

FAST-DRY PROTECTION FOR EXTREME WEATHER CONDITIONS

Aquashell 2L PRO is made of two layers. Our protective outer layer, protects against the wind and cold as well as impact, this is then laminated with our waterproof and water repellent technology to offer the ultimate protective pairing. The mesh lining behind the outer shell enables additional breathability.

For: Habitual riders taking to the road in wet conditions requiring flexible protection, whatever the weather.

WATER COLUMN:
15,000 to 20,000 mm.

STRONG, LIGHTWEIGHT, FAST-DRYING PROTECTION FOR EXTREME WEATHER CONDITIONS

Aquashell 3L PRO is made of three layers. Our robust, wear resistant outer fabric, our waterproof and water repellent membrane and our soft cotton liner offering comfort whilst wicking away any moisture. These three layers are bonded together to form one powerfully technical fabric providing premier protection against the elements, whilst maintaining that essential level of comfort.

For: Riders regularly taking to the road in extreme conditions that require the best protection paired with optimum comfort, and ventilation.

WATER COLUMN:
> 25,000 mm.

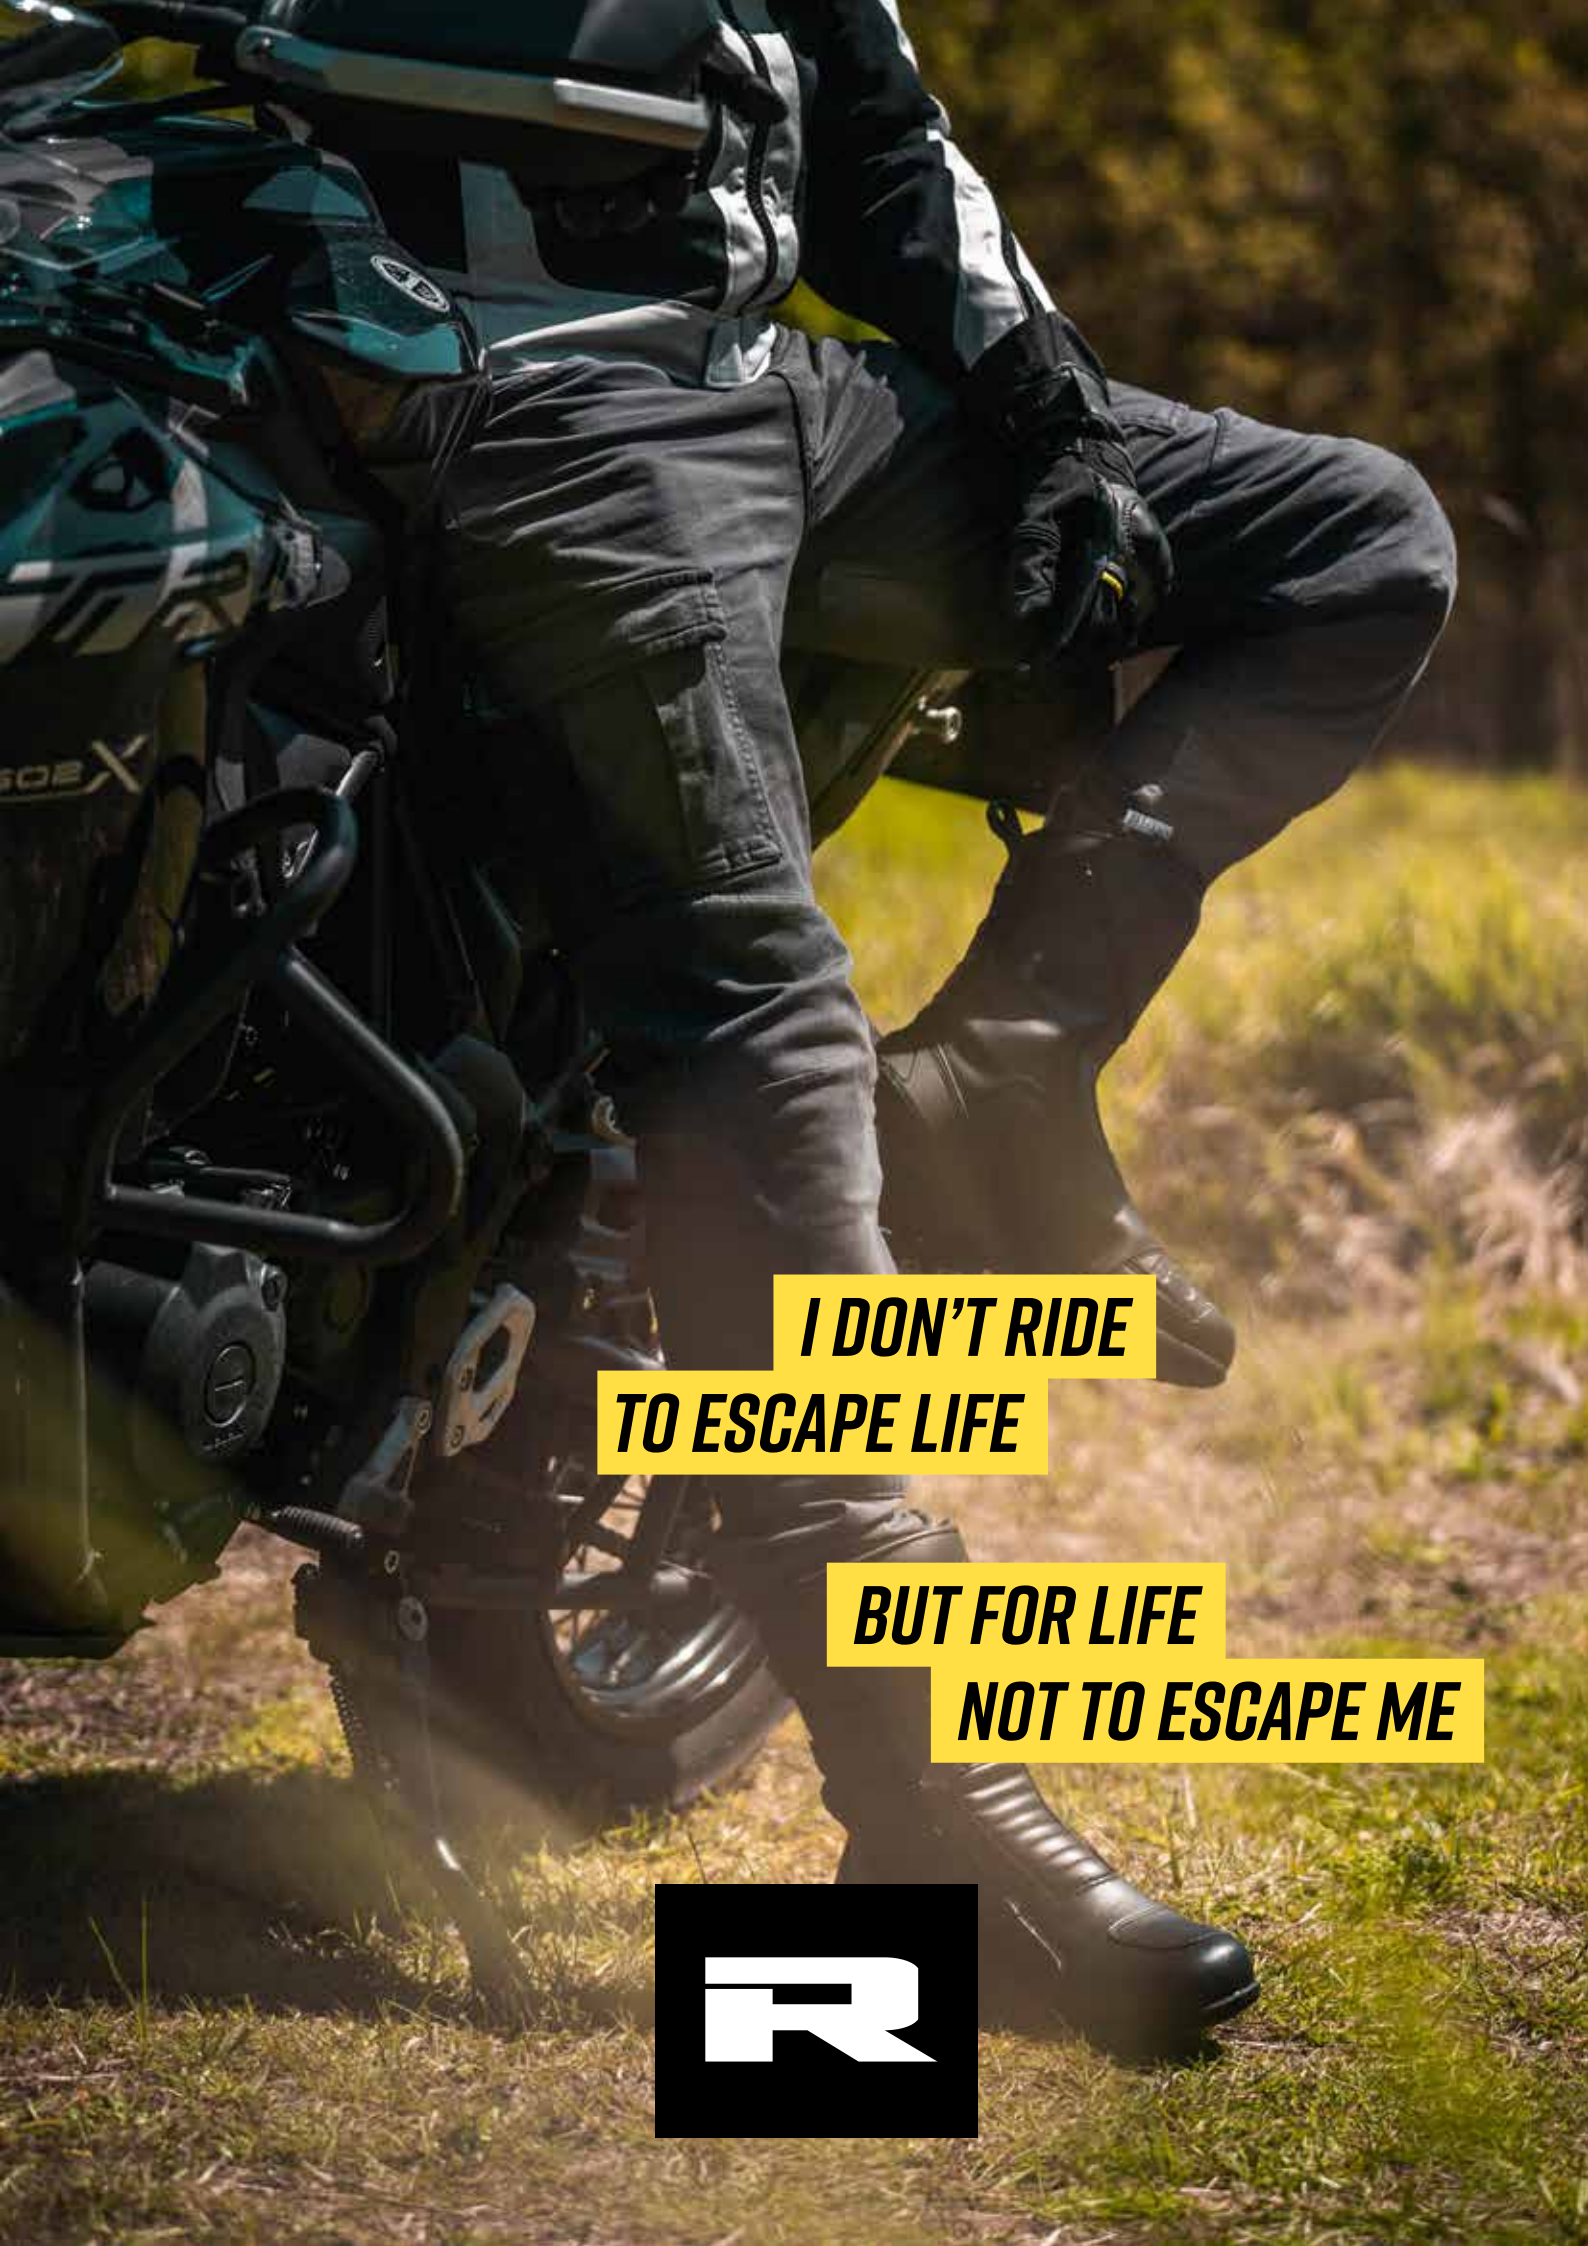

DETACHABLE PROTECTION FOR ALL WEATHER CONDITIONS

Our waterproof, windproof and breathable inner layer boasts an integrated thermal lining which is zipped into your protective riding apparel. Easily removeable in warm weather to offer maximum ventilation.

For: Touring bikers who want flexible protection in all conditions.

WATER COLUMN:
10,000 to 15,000 mm.

TECHNOLOGIES AND FIT EXPLAINED

	For men.
	For women.
	For men and women. The women's clothing has a ladies' fit.
	Gore-Tex is a 100% waterproof, windproof and highly breathable membrane, offering unsurpassed durable wearer comfort.
	Waterproof protection for all weather conditions.
	Waterproof, detachable protection for all weather conditions.
	Waterproof, fast-dry protection for extreme weather conditions.
	Waterproof, strong, lightweight, fast-dry protection for extreme weather conditions.
	Three-layer jackets and trousers have an inside detachable waterproof membrane and a detachable thermal liner.
	Two-layer jackets and trousers have an inside detachable waterproof membrane or a detachable thermal liner.
	RICHA® Airvent System (AVS): Fixed ventilation at key areas
	Richa® Contra Glide Technology prevents sliding over the seat (anti-slip).
	The CE (Conformité Européenne) marking represents RICHA's declaration that products comply with the EU's New Approach Directives
	100 % vegan-friendly. No animal substances were used in the manufacturing process.

	Scotchlite™ Reflective Material greatly enhances your safety at night and in low visibility situations, by reflecting an extremely bright image back to the light source.
	Dupont™ Cordura® is a high-tech fabric made of polyamid fibre. It has an airy structure. It meets the highest standards in terms of strength and durability, while remaining light and stylish.
	SuperFabric™ is five times more abrasion-resistant than leather, with just half the weight. Multiple protective shields are applied close to each other within the fabric, but they remain separate to allow maximum flexibility. The micro guard plates provide an additional layer of protection, without adding weight, and help prevent abrasion to underlying fabrics.
	From Moto GP to on- and off-road motorcycling, D3O® delivers a wide range of Level 1 and Level 2 CE EN1621 certified protectors. It is the number one choice for impact protection that also provides comfort, flexibility and fit.
	YKK manufactures and markets a wide range of zippers, with a primary focus on three types: metal, coil, and VISLON®. The metal zipper has the longest history and is suited for various applications such as jackets, luggage, jeans and others. A coil zipper is made of spiral plastic elements, including polyester and nylon. This is the softest zipper among the three types of zippers. The VISLON® zipper is made of injection molded plastic elements. Rich element color variations are created by formulating the color pigment during the injection process.
	Primaloft® Gold is made with microfibers which store body heat in a remarkably light material that affords good grip.
	Easily wipe your visor dry with your left hand glove, thanks to a special fabric integrated in the glove.
	Use your smartphone or navigation system without taking your gloves off, thanks to conductive material on the index finger and thumb of your right hand glove.

DuPont™ and Kevlar® are trademarks or registered trademarks of E.I. du Pont de Nemours and Company.
